

LUNCHEON MEETING, THURSDAY, October 22<sup>nd</sup> 2015, 11:45 am

Moose Lodge # 1534, 4211 Arctic Blvd, Anchorage

## Juneau Airport Runway Rehabilitation Project

The 2015 Juneau International Airport (JNU) Runway Rehabilitation Project was completed this year. Without roads in and out of our capitol city, the airport is by far the most important means of transportation. There were a lot of construction requirements put upon the project to minimize impacts to the city and maintain safe airport operations at all times. The results affected essentially every aspect of the airport. Find out about the complexities of shutting down a runway of this size and how flights were accommodated during the construction period.

**John Limb, P. E., our Speaker,** was the lead engineer during design and the project manager during construction. He was involved with every aspect of the project and responsible for getting it done, correctly, on time. And, he did most of it all by long distance. John will tell us about the unusual aspects challenges of the project.

Looking at downtown Juneau from 3000' over the airport

Equipment on the runway – backhoe operator seeks gold?

Jordan Creek crosses under the runway in a 10' x 14' pipe arch culvert

Please, RSVP: to Marc at 646-9661 or e-mail him at: [mfrutiger@rmconsult.com](mailto:mfrutiger@rmconsult.com) as soon as possible so the lunches can be ordered & the room set up to accommodate everyone.

*Lunch is \$15, cash, check or credit card accepted at the door*

*All APWA meetings are open to the public and everyone is welcome.*

*The American Public Works Association exists to develop and support the people, agencies, and organizations that plan, build, maintain, and improve our communities. Working together, APWA and its membership contribute to a higher and sustainable quality of life. An international professional association of public agencies, private sector companies, and dedicated individuals, it exists to develop and support the people, agencies, and organizations that plan, build, maintain, and improve our communities.*

Originally chartered in 1937, APWA is the largest and oldest organization of its kind in the world, with headquarters in Kansas City, Missouri, an office in Washington, D.C., and 64 chapters throughout North America. APWA provides a forum in which public works professionals can exchange ideas, improve professional competency, increase the performance of their agencies and companies, and bring important public works-related topics to public attention in local, state and federal arenas.

The association is a highly participatory organization, with hundreds of opportunities for leadership and service, and a network of several dozen national committees in every area of public works. Governed by a 17-member board of directors, elected at both the regional and national levels, APWA is an open, flexible association with a diversified membership of 29,000 and a reputation for quality services and products.

### ***APWA Membership – What Does It Mean For You?***

***Envision having an additional 29,000 staff members to help you examine and resolve problems and advanced processes and courses of action. APWA membership brings you this and more.***

APWA is a highly participatory organization with hundreds of growth and leadership opportunities. Individuals and organizations can serve on committees, attend seminars and workshops or share ideas with an elite public works community. Members not only take the profession seriously, but also are committed to each other and to advocating for increased investment in public works. Membership in the association is open to anyone with an interest in improving the quality of life in their community and its infrastructure; the membership has been a driving force in APWA's growth and development for more than 60 years. Whether through service on the national or local levels, members have shaped the direction of the Association and the public works profession in several, noteworthy ways. APWA:

- Brings together the full spectrum of professionals and practitioners who serve the public through careers in public works.
- Helps communities understand the critical role of public works in our lives.
- Defines the knowledge, skills, and leadership required to meet our communities' evolving public works needs.
- Provides a comprehensive approach to education, professional development, and continuous learning that prepares and qualifies those individuals in public works to meet these needs.
