The Institute of Transportation Engineers (ITE) is an international educational and scientific association of transportation professionals responsible for meeting mobility and safety needs. ITE facilitates the application of technology and scientific principles to research, planning, functional design, implementation, operation, policy development, and management for any mode of transportation.

Through its products and services, ITE promotes professional development of its members, supports and encourages education, stimulates research, develops public awareness programs, and serves as a conduit for the exchange of professional information. Founded in 1930, ITE serves as a gateway to knowledge and advancement through meetings, seminars, and publications, and through a network of nearly 15,000 members working in more than ninety countries

The American Public Works Association (APWA) is an international educational and professional association of public agencies, private sector companies, and individuals dedicated to providing high quality public works goods and services.

Originally chartered in 1937, APWA is the largest and oldest organization of its kind in the world. APWA provides a forum in which public works professionals can exchange ideas, improve professional competency, increase the performance of their agencies and companies, and bring important public works related topics to public attention in local, state, and federal arenas. APWA is an open, flexible association with a diversified membership of more than 29,000 and a reputation for quality services and products.

The American Society of Civil Engineers (ASCE), a professional organization representing more than 146,000 civil engineers, celebrated its 150th anniversary in 2002. With a mission to advance professional knowledge and improve the practice of civil engineering, ASCE is a focal point for the development and transfer of research results, and technical policy and managerial information.

Through strategic emphasis in key areas, including infrastructure renewal and development, policy leadership and professional development, ASCE delivers the highest quality publications, programs, and services to its worldwide membership, demonstrating a daily commitment to sustaining the profession.

The Women in Transportation Seminar (WTS) was founded in 1977. It is an international organization dedicated to building the future of transportation through the global advancement of women. Boasting more than 5,000 members—women and men—WTS is helping women find opportunity and recognition in the transportation industry. WTS fulfills its mission of advancing the transportation industry and the professional women who are a growing part of it by giving its members all of the necessary tools: access, programs, networking, WTS knowledge, lab, mentoring, career center, professional development, leadership training program, and Eno Foundation fellowship and scholarships.
