### The Research, Development, and Technology Transfer Program:

- Provides the Department and local governments with the latest technology, materials, and procedures for conducting our business
- Provides an Alaska specific Transportation research program
- Assists the Department staff with problem solving by conducting literature searches to identify sources of information to solve a particular problem or developing new design or analysis methods; specifications; and analyzing failures
- Provides a transportation-based statewide technical training program
- Provides education and technical assistance outreach to local governments and

DOT&PF
